A smartphone MMORPG with simple tap and swipe controls, "Guardians" can be played with anyone at any time. The game offers two gameplay modes to suit individual playstyles: World Mode, where players team up with other players to explore vast areas; and Quest Mode, where players band together to battle colossal monsters. Furthermore, there is no time-restricting stamina system: players can play for as long as they like however they like! Music producer Tetsuya Komuro has been directing the game music for "Guardians" since spring last year, working on a total of 29 songs—the theme song and 28 background themes—that encapsulate the feel of the game's world.

The official music video for "Guardian," the game's theme song, has been released today. Tetsuya Komuro handled both the lyrics and composition for the song, while Beverly features as vocalist. Komuro's piano blends with the rich, relaxed vocal stylings of Beverly; both are complemented by the majestic melody of an orchestral backing. The producer himself appears in the video, both working on the song's composition and playing the piano beautifully.

The music video can be viewed on the official "Guardians" YouTube channel.
